## From The Supervisor

Fall 2016

As we transition from Summer to Fall and prepare our 9<sup>th</sup> Henrietta Happenings newsletter, there is a great deal "happening" here at the Town Hall.

We are pleased to say that the completion of the new Recreation Center is fast approaching. To date, we are 60 days ahead of schedule and 1.2 million under budget.

The Department of Public Works (DPW) has been very busy keeping our Town in tip top shape. Some of the recent completed projects include:

### Parks Department

- New bathrooms on the west side of Veterans Memorial Park
- 24 additional planting beds for the community garden
- Removal of 160 dead ash trees from Veterans Memorial Park
- Painting of the exterior of approx. 50% of Town buildings
- Added a fitness station to Lookup Dog Park
- Additional walking trails added to Breese Park
- Renovated Roberts Cabin
- Created new bike racks for town properties

Fabricated by Joshua Duncan

### Highway Department

- Paved and performed preventative maintenance to 12 miles of Town owned roads and adjusted 89 driveways. Gutters and catch basins were also repaired during this project.
- The Highway team has been responsible for all of the Recreation Building site work. The site work to date has included the road extension, start to finish site grading, processing of 5200 cubic yards of top soil, installation of the drainage system, and installation of the transformer vault and electrical conduits.

*continued on page 2*

# From the Supervisor continued

- Constructed 80 new parking spaces at Bushman Cabin and resurfaced the remaining parking area
- Assisted in the removal of 300+ deceased trees and trimming of healthy trees in our Town parks
- Begun to harvest dead trees in the greenbelts
- The installation of a new town vehicle two-way radio system is happening with a \$135,000 grant assistance from senator Patrick Gallivan
- Assembly of the new plow truck

**Sewer and Drainage**

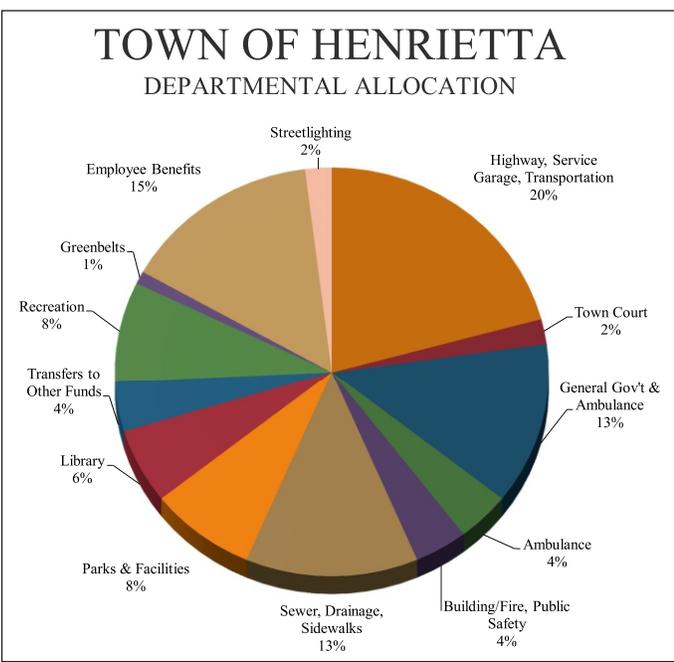

- Installed the sanitary sewer and storm sewer for the new Recreation center
- Completed all the site work for the Recreation Center concrete pads
- De-silted the pond on Fitzpatrick Drive
- Flushed sanitary sewers along “restaurant row”... Jefferson Road from West Henrietta Rd to East Henrietta Rd
- Used sewer cameras to inspect all 2016 lateral repairs and sewer main slip linings

**Town Facilities**

- We have completed an update to the 36 year old heating, ventilation and air conditioning (HVAC) system in our Library. The total cost for the update was \$247,000. This was \$153,000 below budget.
- We are addressing updates to the Town Hall HVAC system and electrical service. These updates are currently in the bid process.
- New front doors have been installed to the Senior Center for easier access and energy conservation.

I would like to thank all of our Town employees for their hard work and dedication spent to improve our Town and serve our residents. All we have to do is look around our Town to see all the positive things that are happening.

Also in the works is the creation and adoption of our 2017 Town budget by the Town Board. I am happy to report that we should be able to keep our Town tax rate flat for 2017, thanks to our finance Department under the leadership of Phil Wagner, for all the effort that went into our budget process.

Enjoy the Fall season and prepare for what Mother Nature will bring us this Winter!

*Jack*  
Jack W. Moore, Supervisor

# Library News

If you're looking to learn something new this fall, the library is an excellent place to start. Every Thursday evening, we have educational and cultural programs for adults. We also have active programs like the monthly Zumba Lite (November 10, and December 8). Visit our program calendar at [hpl.org](http://hpl.org) for full details.

You can also register for our Tech Tutors, one-on-one tutoring sessions with our staff to help you learn how to do things like download e-books and audiobooks, set up a social media account, use Microsoft Office products, and navigate the Internet. Stop by the library or give us a call to set up an appointment.

If you're looking for something entirely new, come in and borrow one of our new Google Cardboard virtual reality viewers, which let you use the viewer and your smartphone to do things like take a virtual tour of world landmarks, ride a virtual rollercoaster, and explore life in the time of the dinosaurs. Google Cardboard is easy to set up and provides a surprisingly lifelike experience. Pick up a viewer to borrow at our Reference Desk.

In other news, the library system has instituted a couple of new features our patrons have been asking for—the ability to save your borrowing history so you'll never have to wonder if you read that book before or not, and also the ability to get text message reminders when your books are due. You can opt into both features from My Account in our online catalog ([bit.ly/2bMz6Gm](http://bit.ly/2bMz6Gm)), or we're happy to help you get either option set up any time the library is open. Visit us Monday-Thursday from 10:00am-9:00pm, Fridays from noon-5:00pm, and Saturdays from 10:00am-5:00pm

Follow us on Twitter

Adrienne Furness, Director  
444-2301 • [afurness@libraryweb.org](mailto:afurness@libraryweb.org)

# Our Henrietta Library

Thousands pass it every day. It's such a permanent fixture but many don't realize its importance. A community gathering place. A learning center. A preschool adventure. A state-of-the-art information hub. A reliable "how to" reference point. A quiet place to reflect & explore. A community outreach champion. A special jewel in town where a visitor can acquire skills, meet new friends and feel better about themselves. An ever-growing Henrietta asset that we can all be proud of.

What is it? Our own Henrietta Public Library. Opened in 1978, the building on Calkins Road has evolved over the years as the community has grown. Library Director Adrienne Furness may have said it best, "A library is about learning." The library, for many, has become a community center. For families, it's a place where learning begins. But it's always been a resource for information and inspiration.

The development of the library and its services has kept pace with technology, social needs and the growth in our town. After almost 40 years, however, the library building has become overcrowded and unable to meet our community's current and future needs. The Town of Henrietta has experienced a significant increase in population since 1978. New housing, business development and the tremendous expansion of the RIT community have all contributed to this increase.

In addition to all of the traditional services that our library offers, many new initiatives are also provided to the community:

- Storytimes and other interactive programs for babies, toddlers, and preschoolers that build the skills children need to succeed in school.
- Monthly programs where kids and teens can learn about and play around with technology in an informal environment that builds problem-solving skills.
- A Tech Tutors program where community members can sign up for one-on-one sessions to work with a library staff member to learn new technological skills--from how to start a computer to more advanced skills like building spreadsheets and using smartphone apps.
- The ability to borrow e-books and digital audiobooks, as well as online access to *Consumer Reports* and other databases right from your home.
- A pop-up library program that brings the library to community events and locations.

In a recent Democrat & Chronicle article, Supervisor Jack Moore put it into perspective. "People might think that with the internet and the way all of our lives have changed, that libraries aren't that important anymore," said Moore. "But that's just not the case. Our library is being used by a thousand people a day, it's become a social meeting site, a place to read periodicals, to learn and get computer help. We need a facility that reflects that."

For Supervisor Moore, it's a quality of life issue. He believes Henrietta residents deserve to live in a community that meets the demands of its people. The Recreation Center that has been talked about for 30 years is now becoming a reality. An up-to-date library is the next step in providing for the needs of our Town for many years to come.

*continued on page 5*

# Our Henrietta Library continued

As the demands of our library system reach this critical point, a committee of Henrietta citizens was established to review our town's options. The committee's task was to determine whether it would be more feasible to renovate and add on to the existing building or to build a new library. After an extensive review, the committee determined that it is more cost effective to build a new library and re-purpose the old building. Options for the old library include moving Henrietta Town Court (currently housed in rental space) or possibly leasing the building to the Monroe County Sheriff's Department (which would require County approval). Either option would provide a positive financial outcome for the Town.

Moving forward, the library will establish a foundation to help fund the project. The Town Board is working with Passero Associates on site plans and architectural drawings for the new facility. Your input to the new library project is encouraged and welcome. Please email comments to [tbaker@henrietta.org](mailto:tbaker@henrietta.org) or write to **Todd Baker, Town of Henrietta, 475 Calkins Road, Henrietta, NY 14467.**

In the article "UpClose: Designing 21st-Century Libraries | Library by Design" published on the [Library Journal](#) website, author Peter Gisolfi lays out the design approach for today's modern library.

## **ELEVEN EMERGING TRENDS**

*It is often difficult to recognize changing trends while they are still in flux. That said, consider the typical characteristics of today's 21st-century library. While the library remains an inspiring public building with an important civic presence, many other aspects are different:*

- *An informal community cultural center*
- *Transparency among spaces so patrons can be seen and more easily served*
- *Reading spaces interspersed within the various collections*
- *Larger and more varied spaces for children and teens*
- *Community, meeting, and activity rooms of varied sizes*
- *Daylight in all areas of the building*
- *Connections to outdoor space*
- *Spaces devoted to computer and Internet instruction and online research*
- *Automated systems, and increased staff efficiency*
- *Flexibility to accommodate future requirements*
- *The library as a community model for sustainable practice*

In the months ahead a series of meetings will be held to review, discuss and provide a public forum for input to this proposal. Meeting times and dates will be posted on the town website.

# Engineering Department

## What's New in Henrietta

The following is an update on some of the many projects and developments currently progressing in the Town of Henrietta. As of the writing for this post, the Engineering Department has 47 private development projects that it is overseeing. Thirteen projects are in the Design Phase, twenty-one projects are in the Active Construction Phase and the remainders are in Post Construction. Some of the notable projects are:

- A new medical office is breaking ground at the south east corner of Middle Road and Calkins Road. This new 32,500 square foot facility will provide additional medical offices in the Town.
- Erie Station Business Park at 30 Becker Road is just finishing construction. The new industrial office and warehouse building will be close to 37,000 square feet.
- The Forteq North America Company is adding a 30,180 square foot building expansion to their facility located at 150 Park Centre Drive. This will double the size of their existing manufacturing and warehouse building.
- Town Center Apartments North and South will be constructing a 124 and 249 unit apartment projects located between the Dome Arena and Veterans Memorial Park over the next several years. Also, building and site improvements are being made to enhance the Dome Arena.
- The Riverwood Student Housing development located at 4545 East River Road is currently under construction and will house approximately 687 students when it is completed next summer.
- Several self-storage projects are underway in the Town. The Tru-Blu Self Storage facility has just been completed and is located at 60 Goodway Drive while Erie Station Self Storage at 70 Erie Station Road is currently under construction.
- The Empire United Soccer Academy has completed one of four soccer fields along John Street and is in the process of constructing a 58,520 square foot indoor soccer training facility which should be completed early next year.

*continued on page 7*

## Engineering Department continued

- Fox Field Subdivision, Section 1 has started construction at the end of Farrell Road Extension. This single family subdivision will consist of 53 residential lots and 4.3 acres of open space adjacent to the Genesee river. The developer will also be constructing a six foot widened shoulder next year on the north side of Farrell Road Extension for bicyclists and pedestrians.
- Queens Park Subdivision, Section 1 is located at the northeast corner of Martin Road and Moore Road. This residential subdivision includes 52 single family home lots and will provide a six foot widened shoulder on the east side of Moore road.
- Barberry Cove Subdivision is also under construction and will consist of 70 residential units and 51 acres of open space. It is located on the west side of East Henrietta Road north of Ward Hill Road.
- Trail View South Subdivision is another 32 lot residential project located on the east side of East Henrietta Road and directly north of the Town of Rush. As part of this project, the Town obtained 59 acres of open space.
- Riverton Parcel F, Section 3 is the last subdivision section for the residential development located off of Erie Station Road. This 30 lot subdivision is scheduled to break ground in mid-September.

For a list of all projects in the Town of Henrietta, you can check out the website at [www.henrietta.org](http://www.henrietta.org).

If you have any questions, please contact us at 359-7070.

## The Roth building

This year's school district calendar has the banner "Celebrating 70 Years of Educational Excellence" on the cover. The Rush–Henrietta Central School District was officially formed in 1946. Prior to this time children in Rush and Henrietta attended schools within their own communities. These were one room schools for the elementary students. Both Rush and Henrietta had their own high schools. Due to an increasing school population, students were being housed in the Rush Town Hall, the Union Congregational Church in East Henrietta, the Methodist Church in Rush and a cinder block garage near the East Henrietta High School. This high school building was originally the Monroe Academy and was 123 years old.

The school board presented a proposal to the community in 1949 to build a new one story 102,000 square foot building with an estimated cost of \$1,475,000. The proposition was passed with a vote of 728 to 162.

When the building was completed, dedication activities were held throughout the week of May 18, 1952. During the two day open house, 3,500 people visited the school. Some of the unique features they viewed were drinking fountains in each elementary classroom, overhead tiers of lights, ceiling radiant heating and glass blocks around the doors.

Named for Charles H. Roth Sr., this was the first school in New York State built to accommodate 1,000 students from kindergarten through 12<sup>th</sup> grade all on one floor. There were 51 classrooms, a library, a cafeteria, a gymnasium and an auditorium. The architectural design by Ade and Todd, Architects, was so unique that officials from Japan and the New York State Board of Regents, as well as school board members from neighboring school districts visited the building. Clearly board members Raymond Bock, William Gillette, Jasper Howlett, Eldred Koehler and Charles Roth and the communities they represented were providing a facility where educational excellence could and would occur.

As the school population increased, neighborhood elementary schools were constructed and many of them will be celebrating fiftieth anniversaries. The current high school building is named for James E. Sperry who had a prominent role in the construction of the previously mentioned Monroe Academy.

Formal dedication was on May 18, 1952. Students could go from kindergarten through twelfth grade in one location.

# Tinker Nature Park

This past summer has been quite a busy one at Tinker Nature Park. While temperatures were higher than average, the dry summer has brought visitors from all over the state to visit the park. Our log book registered guests from Buffalo to Utica to Corning, and points in between. Also, many local residents have brought their out of town guests to visit from places like Vermont, Colorado and Oregon.

A topic of interest among visitors has been the pond at Tinker and the progress in containing the Hydrilla plant that was discovered in the pond last year. The bottom of the pond currently is covered by a benthic mat in order to suppress any rootlets or plant nodules from growing. This, in conjunction with the grass carp, released in the pond prior to the mat placement will hopefully eradicate this plant from the pond. This project is being done in conjunction with Finger Lakes PRISM, the NYS DEC and the Town Engineering Department. Park wildlife seems unfazed as we often see the great blue heron dining along the pond's edge or see turtles basking themselves on the mat's edge.

The park also received quite a bit of sprucing up this summer as the parks department stained the Hansen Nature Center, Tyler Pavilion, and amphitheater. The nature trail received a thick layer of mulch, many trees were pruned and the fitness trail signage was stained as well. The gardens at Tinker, despite this summer's drought, continue to look good due to the attention of Carol, park groundskeeper, and the Tinker Garden Volunteers.

Visitors are reminded not to leave valuable items unattended in their vehicles.

**If anyone notices suspicious activity they are encouraged to call 911 to report it.**

## Upcoming program:

**Dec. 3<sup>rd</sup> and 4<sup>th</sup>: Holiday Event: noon - 3:00pm.** *At the Nature Center, make an ornament with Santa. Music by Dean Santos, and enjoy cookies and cocoa. Tour the Tinker Homestead decorated for a Victorian Era Christmas while enjoying the traditional holiday music of Jessica and Warren.*

**Sponsored by the Friends of Tinker Nature Park and the Town of Henrietta**

Nature Center is open Tuesday–Saturday from 9:00am to 4:00pm.  
Closed Sunday, Monday and Holidays.

The Tinker Homestead is shown by appointment:  
Tuesday–Saturday, 10:00am to 2:00pm.

Park/Trails are open 7am – Sundown 7 days a week.

Restrooms available by Calkins Rd. Parking Lot.

Please remember Dogs are **not** permitted in Tinker Nature Park

## Parks and Recreation

On August 17, 2016, Pamela Grundman was hired as the new Assistant Recreation Director with a starting date of September 19<sup>th</sup>. We are excited to have Pam join our team, especially during this time of transition into the new Henrietta Recreation Center. Pam brings with her many years of experience working for the Town of Ontario Parks and Recreation Department and will serve as a valuable asset to our department. Please take a moment to say hello and welcome Pam to our Town the next time you visit the Recreation Department.

If you would like to view / register for recreation programs or make a facility reservation, visit our online registration page at <http://parksandrecreation.henrietta.org>. Please note that park cabin and pavilion reservations for 2017 will begin on Thursday, December 1, 2016 for residents only. Non-resident reservations will begin on Tuesday, January 10, 2017.

Jason R. Kulik  
Director of Parks and Recreation

## From the Town Clerk

Town of Henrietta

### PASSPORT SATURDAY

Saturday, November 5th  
10:00 a.m. — NOON

Please call the Town Clerk's  
Office at: 585-359-7035  
to set up an appointment!

### Do I need a new dog tag?

The first time you apply for your dog's yearly license, you will receive a permanent, numbered steel tag that looks like a little fire hydrant. This is your dog's tag while living in Henrietta and should be on the dog at all times. Dog licenses are issued annually and are typically valid for one year from the issue date, however you may choose to purchase a multiple year license valid for the length of the dog's rabies vaccination. (annual fees would remain the same). When it is time to renew your dog's license, you will be notified by mail and/or email by our office. Upon renewal, you do not need a new license tag. The unique number on the steel tag originally issued is your dog's permanent identification number. If the originally issued dog tag gets lost or broken, we can issue you a new tag for \$3.00.

Can't make it into our  
office to pay for  
your dog license?

Rebecca Wiesner  
Town Clerk / Receiver of Taxes  
585-359-7012 • [rwiesner@henrietta.org](mailto:rwiesner@henrietta.org)

# Building and Fire Prevention

As the fall weather approaches, we ask that everyone please abstain from outdoor fires for disposal of your yard waste. This includes: tree limbs, brush and especially leaves. Outdoor open burning has been banned in Monroe County since 1999. All yard debris can be deposited at the Martin Road Park site. Please watch the Henrietta Post, newsletter, and Town website for further information. Your cooperation is greatly appreciated in this matter.

At this time of the year we need to ensure that our fireplaces and woodstoves are in good working order. If you haven't given your fuel-fired appliance a good cleaning, now is the time to do so. There are many "chimney sweep" companies that can provide for that or you can do it yourself, but please be careful! This is also the time of year to "**Change your Clock, Change your batteries**" in your Smoke and Carbon Monoxide Detectors.

As the weather progresses and we transition between fall and winter, please be mindful of changing sidewalk and road conditions and drive accordingly. Darkness is coming earlier, and the holidays are right around the corner, so be aware of traffic conditions.

Please do not hesitate to contact us with any concerns or questions at: 585-359-7060.

**Terry Ekwel**  
Director of Bldg & Fire Prevention  
359-7065 • [tekwel@henrietta.org](mailto:tekwel@henrietta.org)

## The Productivity of Henrietta's DPW

At the beginning of the summer the union employees from the Department of Public Works had an idea. "What if we start every morning at 6:00 AM and work an extra hour per day, Monday through Thursday. Could we work a half day on Fridays?"

That was the idea they presented to the Supervisor. He approved and it created one of the most productive summer work schedules the town has ever had. Starting earlier in the morning meant avoiding much of the hot weather we all experienced this summer. It often resulted in the town being first in line to pick up materials for the day or asphalt for the scheduled road maintenance that day.

"The program couldn't have worked out better", says Supervisor Moore. "It just shows how good ideas and open communication can work to everyone's benefit" The summer work load was performed efficiently and ahead of schedule. Moore believes the effort was a credit to the union and looks forward to creating new initiatives in the future.

## What is the “Cloud”?

“If I upload all my pictures and videos to the Cloud, will I be able to get them back?”

“What about my personal data, is it safe?”

As you may imagine, your files are not floating around in space unattended as the cartoon depicts. Actually, there are many data centers across the nation and the world that host extremely large servers with vast amounts of storage referred to as “server farms”. A Server farm (or server cluster) is a group of computer servers usually maintained by an enterprise to accomplish server needs far beyond the capability of one machine. (<https://www.cloudyn.com/blog/10-facts-didnt-know-server-farms>)

Another advantage to using a Cloud service is having your data replicated in a different location. If your computer or phone is damaged, destroyed or stolen, your files are still safely stored in another place.

The Town uses a Cloud backup solution to ensure that all of our servers are backed up in their entirety several times a day, and

offsite on a scheduled basis.

Is the “Cloud” something you want to pursue? Perhaps. Be sure you are using a trusted vendor whether it is your internet vendor or cell phone provider. Ask questions and compare features and costs.

The biggest takeaway is to remember that all devices can fail, be lost or damaged whether it's a desktop computer, laptop or smart phone. It may never happen to you but being able to recover your cherished information from a backup source is invaluable.

Happy Computing!

Michele Taylor  
IT Coordinator  
444-2209 • [IT@henrietta.org](mailto:IT@henrietta.org)

All DPW departments have had a busy summer, the dry weather has allowed for a large number of projects to be completed. Twelve miles of town roads were paved or surface treated to extend their life. Worn out pavement has been replaced, more than two hundred trees were taken down and hundreds more were trimmed to improve the appearance of our town parks. Work is ongoing in the Veterans Memorial Park in the parking areas, sports fields and restrooms. All of this work was successfully completed by the dedicated employees of the Public Works Department. Sharing equipment and personnel from each department gave us the ability to undertake planned and unplanned work.

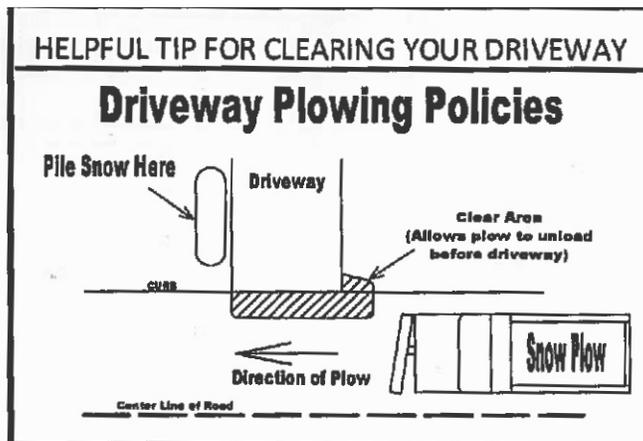

Public Works receives numerous calls from residents in the fall about leaf pickup. Leaves are removed as yard debris by your contract waste hauler. Please contact them for specific handling instructions, especially if you have a large amount. Leaves can cause drainage problems if raked into roadside ditches or left at the curb. Please do not rake them into these areas as it will cause street or yard flooding during the fall or winter. The Town of Henrietta again will offer five weekends this fall to allow residents to bring leaves and brush to the Martin Road Park South for recycling. Dates are as follows; October 22<sup>nd</sup>- 23<sup>rd</sup>, October 29<sup>th</sup>- 30<sup>th</sup>, November 5<sup>th</sup>- 6<sup>th</sup>, November 12<sup>th</sup>-13<sup>th</sup>, November 19<sup>th</sup> -20<sup>th</sup>. Materials will be accepted from 10:00AM till 3:00PM each day. If you bag your debris do not use plastic bags, only paper bags will be accepted.

## HIGHWAY WINTER POLICIES

As winter approaches, The Town of Henrietta would like to remind you of necessary rules and regulations that provide for your safety and for the safety of the traveling public on main roads and neighborhood streets within the Town of Henrietta during the winter season. We appreciate your cooperation.

The Henrietta Highway Department is responsible for snow and ice control on Town, County and State roads within the Town of Henrietta, with the exception of the NYS Thruway and I-390. Our Department of Public Works is staffed twenty-four hours a day during the winter season and may be reached at 359-7005. Our Highway Department follows the "Sensible Salting Guidelines" established by the County of Monroe, in conjunction with the Environmental Management Council. This requires us to use only enough salt to make our highways safe for motorists and requires motorists to reduce their driving speed according to road conditions. When following our plow trucks, please allow adequate distance between your vehicle and the plow trucks. These vehicles may make sudden maneuvers during their operation. For example; crossing into other lanes, making wide turns, moving slower than normal just to name a few. Drivers should never pass the plow trucks for their own safety as well as ours.

The town receives many complaints about snow being pushed into their driveways by town trucks. Some incidents are unavoidable and we will be there to clean up our mess, others can be avoided if the private contractor plowing driveways would follow the tip below for pushing and storing snow off of rights of way.

*continued on page 14*

# Department of Public Works continued

**Winter Parking:** In order to facilitate snow removal operations and eliminate potential hazards, the parking of vehicles on all highways within the Town, including the shoulders of the roads, is prohibited between the hours of 2:00 AM and 9:00 AM from November 1st to April 15th. Vehicles in violation of this ordinance are subject to a parking ticket (minimum \$50.00). Repeat violators or vehicles that prevent plowing of a street may be towed and the vehicle's owner will be responsible for all towing and storage charges incurred by the Town.

**Mailbox Policy:** The Town of Henrietta is one of a small number of towns that still repair or replace mailboxes damaged during snowplowing operations. Since there is no statutory or legal authority which grants an owner or resident the right to place a mailbox along a public road in the right-of-way, our repairs and replacements are done as a courtesy and must be limited to standard size steel rural mailboxes and steel pipe posts. Custom posts and mailboxes cannot be replaced with anything other than the standard replacements. If you have an expensive and/or decorative mailbox or post, you may want to consider the option of storing it for the winter and replacing it with an inexpensive substitute. This

decorative category also includes the one-piece plastic post and mailbox combinations, which are extremely susceptible to winter damage.

**Driveway Clearing:** When clearing your driveway of snow, please remember that New York State Law requires that the snow remains on your own property. Any snow pushed, blown, or plowed onto any street is a safety hazard and may result in tickets being issued under New York State Vehicle and Traffic Law. If your driveway is plowed by a private contractor, both the homeowner and the plow operator share the legal responsibility for compliance with these regulations. Thank you for assisting the Town in trying to ensure our motorists' safety during the winter months.

Chuck Marshall  
Commissioner of Public Works  
359-7008 • [cmarshall@henrietta.org](mailto:cmarshall@henrietta.org)

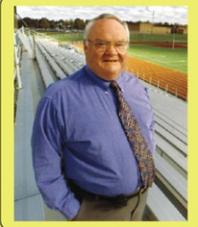

# Blood Drive

## Rush Henrietta Blood Drive

Several RH alumni football players recently had the pleasure of visiting Coach Werner Kleemann. The visit was full of laughs, stories, and memories. This wonderful time together also included a more serious topic. Coach Kleemann informed us that he had been diagnosed with leukemia. In true Kleemann form, he also shared his guilt in receiving blood transfusions once a week. He mentioned being worried that he was taking blood that could be used to help others. As we left, we discussed wanting to do something for Coach. We were moved by his strength and even more so by the fact that during this difficult time, Coach was more concerned about taking more than his share of blood. From this experience, came the idea of having a blood drive. This would be a great way to honor Coach Kleemann while giving back to the community that he has served, loved, and lived in for so many years.

**Werner  
Kleemann  
Blood Drive**

**November 30, 2016**  
10:30 AM- 7:30 PM

**Rush-Henrietta SHS**
