

# HENRIETTA RECREATION CENTER

Construction  
Update

*It won't be long now....*

August 2016

The construction progress at our new Recreation Center is amazing to see. The outer facade is almost complete, the interior walls are dry walled and most are already painted. The windows will be going in soon and should be completed by the end of August. Once the building is completely enclosed, workers will begin the process of laying the sports flooring in the center. This important step is scheduled to be completed sometime in October.

Again this month we have posted a new video to show construction progress inside the center. When watching the video you will notice the freshly painted high ceilings, skylights, walking track and sheer size of the facility. I think we're all getting a bit anxious to see this new landmark of our community. It won't be long now...
