## From the Supervisor

It has been my pleasure to serve as your Town Supervisor for the last seven months. During my campaign I shared with you many areas that I felt needed to be addressed to improve and protect our community. Listed below are actions which, with the support of the Town Board, have been taken to make some of those improvements:

- A Finance Director with 20 years extensive background in municipal finance has been hired. Her skills in budgeting, forecasting, long range planning and knowledge of municipal finance regulations have been advantageously utilized as we continue to implement stronger financial controls.
- A Town Board resolution was passed to return \$100.00 of surplus tax dollars to every Henrietta residential homeowner. This resolution requires state approval, it has passed the New York State Senate and Assembly and will now be sent to Governor Cuomo for his signature. The distribution of the \$100.00 will begin after the Governor's approval.
- Based on discussions with homeowners I became aware that there were significant flaws in the enforcement of property codes. To identify the flaws and see that the codes were properly understood and enforced, three additional employees were hired.
- The Town Board passed a resolution "No Casino in Henrietta". The final decision lies with the state governor, your senator and assemblyman. As of this date, the proposal to build a casino in Henrietta has been withdrawn.

### The State Comptrollers Audit cited the following concerns:

- 1) Lack of long term financial plans
- 2) Insufficient oversight of financial operations
- 3) Inadequate policies and procedures over the use of credit cards and
- 4) No certification of payroll by Supervisor

In response to those concerns, a corrective action report was sent to the Comptroller's office on March 14, 2014. On March 21, 2014 a notice of acceptance was received.

I appreciate the positive feedback I have received from many residents via phone calls, e-mails and personal visits to my office. It is through open communications and conversations that we can work towards a common understanding and together meet the needs of this outstanding community.

Sincerely,

Jack W. Moore, Supervisor

## Town of Henrietta

475 Calkins Road  
Henrietta, NY 14467  
585-334-7700  
www.henrietta.org

As summer approaches, we once again find ourselves busy with Property Maintenance issues. Being respectful of your neighbors, by keeping your property well maintained, helps to make the summer season a pleasant one. Grass and other plant growths must be cut prior to reaching an excess

of 6 inches, per Town Code Chapter 205-5 (E). Failure to do so will result in a Violation Notice sent to the property

owner, giving them a specific due date to cut the growth. Failure to comply by the re-inspection date will result in one of our contracted agencies cutting the growth. This non-compliance will result in the home owner paying a \$200.00 mowing fee, plus a \$100.00 administrative fee. The fees are payable at time of service or they shall be attached to the property taxes, as prescribed by law. So please be vigilant about maintaining your yards and keep Henrietta a beautiful place to live! Thank you for your cooperation.

## Welcome

### NEW DIRECTOR OF PARKS AND RECREATION

Jason Kulik joined the Town of Henrietta on May 27, 2014 as the new Director of Parks and Recreation. Jason brings with him an extensive background in recreation and parks management having worked for the Town of Webster and Town of Ontario as Recreation Supervisor for over 12 years. He served the Webster community from year 2004 through 2014 and the Ontario community from 2002 through 2004.

Jason has a Bachelor of Science degree in Recreation and Leisure Studies from the State University of New York College at Brockport. As Director of Parks and Recreation, he is responsible for managing the parks and recreation budget as well as the daily operations of all of its services and facilities.

A native of Wellsville, NY, Jason and his wife Stacey currently reside in Webster but are actively searching for a home in Henrietta. He is an avid golfer and outdoorsman who believes in maintaining a recreationally active lifestyle which helps refresh the mind and body.

**Jason R. Kulik**  
Director of Parks and Recreation

## TINKER HOMESTEAD AND FARM MUSEUM - UPCOMING EVENTS

### 11TH ANNUAL "CIVIL WAR DAYS"

**August 1st, 2nd, & 3rd, 2014**

Re-enactment and Living History at  
Tinker Nature Park, 1525 Calkins Road, Henrietta, NY

#### EVENT SCHEDULE:

**Friday:** 6:30pm - Concert on the Lawn with the Excelsior Brigade Fife and Drum.

**Saturday & Sunday:** Camps open from 10 am to 4 pm  
Battles Both Days at 2 pm

**Saturday:** School of the Soldier - 10:00am  
Experience life as a civil war soldier. Ages 8 -16.  
Call 359-7044 to register.  
*Hosted by the 34th North Carolina*

**Saturday:** 11:00am - Presentation in the Hansen Nature Center:  
**Heroes in the Attic - The Untold Story of Two Civil War Soldiers.**  
*Presented by local author Dennis P. Bielewicz.*

**Sunday:** 10am Church Service (Public Welcome)

**Sunday:** Uniform and Weapons Review at Noon  
*Hosted by 28th New York Volunteer Infantry Regiment, Company E, 1st Tennessee*

### TINKER NATURE PARK FIELD DAYS

**Wednesday, August 13th**

10:00am - 2:00pm

*Sponsored by Broccolo Tree and Landscape.*

Children's activities include: wetland studies, field studies, nature walks and puppet show.

### HARVEST FESTIVAL

**Saturday, September 20th**

11:00am: 20th Anniversary of  
Tinker Homestead Dedication

Noon-3pm: Watch as we  
extract honey from our hives,  
honey for sale, sample food  
made with honey, music,  
horse drawn wagon rides,  
museum tours, apple cider  
pressing.

## VOLUNTEERISM AT TINKER NATURE PARK

We would like to express our appreciation for the volunteers who help make this park a source of community pride. There are too many volunteers to list everyone by name, but whether it's a student volunteering for a single event or a person who has been with us from the start, their help has been an important part of the park's success. There are many different volunteer opportunities including: the Tinker Homestead Docents who staff the museum during events; the Friends of Tinker Nature Park who assist with programming, sponsor and help staff events; and the "Garden Tinkerers" who maintain the display gardens at Tinker Park, the Homestead Gardens and sponsor our popular Saturday morning garden seminars. The Henrietta Historian who is located in the Tinker Homestead Complex also has a volunteer group that assists with cataloging and preserving Henrietta's history.

Throughout the park's history the Boy Scouts have been involved in assisting with park events and the park has hosted many Eagle Scout projects as well. Girl Scouts are also supporters of the park, assisting with clean-up, gardening and Silver Award projects in the park. The Rush-Henrietta Life Skills program assists with landscaping during the summer. The Henrietta Youth Asset Team is involved in assisting with many of our larger events as are students from the Rush-Henrietta High School. The Rotary Club has been a long time park supporter and recently

stained the gazebo at the Tinker Pond.

The popular Civil War Encampment would not be possible without the support of the reenacting community who volunteer their time to educate and entertain the public about this pivotal period in American history. The park has also benefited from volunteer beekeepers who not only assist with our bees during the year but also demonstrate the harvesting process during the Harvest Festival held each September. Broccolo Tree and Landscape has sponsored and staffed the annual Tinker Park Field Days in August. During our annual Victorian Christmas Event we are fortunate to have Santa visit the nature center and make ornaments with the children. Over the years we have had many different tree services volunteer their time. During the past few years, B&T Tree Service has provided the chipper and manpower for our annual Christmas Tree Recycling program and food drive. Finally, I would like to thank our friends and family who also take the time to volunteer at many of the events held throughout the year.

If there is a particular area that interests you, new volunteers are always welcome. For more information regarding volunteer opportunities please call 359-7044 or e-mail [naturecenter@henrietta.org](mailto:naturecenter@henrietta.org).

Tim Pratt

## 20TH ANNIVERSARY OF THE DEDICATION OF THE TINKER HOMESTEAD AND FARM MUSEUM

On September 20, 2014 the Tinker Nature Park will be hosting multiple events. In addition to the Harvest Festival which begins at noon, we will be celebrating the dedication of the Tinker Homestead and Farm Museum at 11 am with music, a few short speeches and lots of cake. There will also be a memorial tribute to John Aldridge who passed away last summer.

Over twenty years ago, Carol (nee Tinker) and John Aldridge began arrangements for the transfer of ownership of the Tinker Homestead, an 1830's cobblestone home which had been lived in by six generations of Tinkers, to the Town of Henrietta for use as a museum. In addition to the homestead, the property included 65 acres of land, barns and a chicken coop (no longer standing). The land is now used for walking trails, the Hansen Nature Center and the Nature Park.

The "jewel" in this rural setting is the cobblestone homestead built with the cobblestones found in the surrounding fields. Today the home is furnished to reflect an 1890's farm house. The barns house an extensive collection of farm implements from the mid 1800's to the tractor that was used by Carol's father, Glen, in the mid 1900's.

On September 24, 1994, Supervisor James Breese officially dedicated the Tinker Homestead and Farm Museum. Over the past 20 years, countless residents of the town and the surrounding counties, even visitors from abroad, have toured the cobblestone farm house. They have been introduced to the history of our community, the history of the Tinker family, the intricate construction of a cobblestone house and the life a farming family lived in the late 1800's.

We hope you will help us celebrate the wonderful gift of our history and our heritage that Carol and John Aldridge made possible. The Tinker Cobblestone Homestead is open for tours during our events. Please call 359-7044 to schedule a tour at another time.

Tina Thompson  
Town Historian

## TOWN CLERK'S DEPARTMENT

### Passport Services

When you have your passport application processed here, you not only receive the finest service, you are also helping to keep Town property taxes among the lowest in Monroe County!

All passport processing fees collected in Henrietta stay in Henrietta, which helps to support the many fine programs and services offered to Henrietta residents and the greater community.

We can also take your photograph at the time of your appointment for an additional \$10.

To schedule an appointment, please contact our office at 359-7038.

### School Taxes

Rush-Henrietta School Taxes will be mailed out the last business day of August. If you are responsible for payment of Rush-Henrietta School Taxes and have not received your tax bill by the first week of September, please call the Tax Receiver at 359-7035 to request a duplicate tax bill at no charge. If you are planning to pay in installments, the first one is due September 15, 2014, or full payment is due by October 1, 2014.

For additional information, please contact the Town Clerk's Department at 334-7700 or the Animal Control Office at 359-7009.

## RIT UPDATE

Rochester Institute of Technology will welcome its Fall 2014 incoming class with student orientation the week of August 19-24. RIT will be welcoming over 3300 new undergraduate students

(freshmen and transfer students) from all 50 states and 30 countries. In addition, over 1150 new graduate students will join the RIT student body on the Henrietta campus.

RIT's Brick City Homecoming Weekend will take place October 16-19. The weekend will draw families as well as several thousand alumni of the university back to the campus.

Through a collaboration with the Town of Henrietta, and with funding from the State of New York, RIT will be replacing the lighting along a portion of Jefferson Road adjacent to the campus beginning this summer and into early fall. The project will include new and more attractive poles and fixtures as well as LED bulbs that will last longer and be more energy efficient.

The university's Gene Polessini Center will open in the fall of 2014. The Center will be the new home for RIT's Division I men's and women's hockey programs, and will double the current capacity of Ritter Arena as well as provide more modern amenities for Tiger hockey fans.

## LIBRARY NEWS

When people think of libraries, they think of books in a building. That's a big part of who we are, but we also have apps for your smartphone or tablet that let you hold the library in your hand wherever you are—twenty-four hours a day, seven days a week.

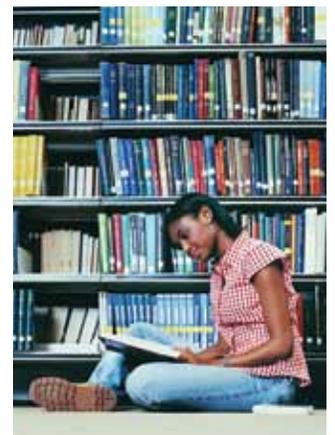

One is the MCLS Mobile app, which you can use to find events, check your account, and renew items checked out on your card. It also includes access to the system's extensive collection of local historical photographs—which is so much fun to play around with—and a feature that helps you find the libraries nearest wherever you happen to be.

Another must-have app is OverDrive, which you can use to download e-books, audiobooks, and movies anywhere you have an Internet connection. Once you download the app, you'll have to do some setup to get it started and connected to the Monroe County Library System's

collection (we can help you with this!), but once you get it running, it's easy to download and use materials. I love it when I'm going on a trip. You can download travel guides, books for the plane, audiobooks for the car, and movies for when you're tired out in your hotel room after a long day.

For more information about these apps or assistance getting them set up, stop by the library or give us a call. We're always happy to help!

[Adrienne Furness](#), Director

## FROM THE ENGINEERING DEPARTMENT

Everyone knows the best way to cool off on a sultry afternoon is to take a refreshing dunk in the pool or turn on the sprinkler. Western New York is lucky to have plentiful amounts of water available to use, but it is important to remember that the pool and sprinkler are just one stop on the journey of the water through its cycle. Do you know where your water goes once it leaves your property? Keeping the water that leaves your property as clean as possible will benefit your neighbors and the Town as a whole. The Engineering Department would like to share some steps to follow as you enjoy your time outdoors in the water this summer:

- Prevent pool backwash from entering directly into a fresh water body.
- Backwash water should be drained into the lawn or landscaped areas. This allows chemicals to dissipate through the soil.
- Never drain backwash into a creek, stream, pond or storm drain.
- Don't allow backwash water to drain across driveways or impervious surfaces.
- Take care when draining a pool to prevent adverse impacts on your neighbors.
- Take note of drainage patterns that could affect neighboring properties, like steep slopes.
- Drain your pool into your lawn slowly using a low-volume pump or siphon if possible.
- When winterizing your pool, wait for the chlorine levels in the water to drop near zero, draw down the pool level as desired, and then add the winterizing chemicals. Mix them in with a skimmer or brush pole attachment, and then cover the pool.

Remember that chemicals like chlorine, algaecides and other treatment chemicals are great for keeping your pool crystal clear, but they aren't meant to be introduced into the natural water bodies around you, and can adversely affect wildlife that drink and thrive in the water. Water that enters the storm sewer system is not treated, and is conveyed directly from the drain to a nearby creek or pond.

Front and back yards also like to have a splash of water as the temperatures rise so they can stay lush and green. Lawn watering likely goes in hand with fertilizing, and it is important to take the same precautions with lawn chemicals as pool chemicals:

- Allow fertilizers a day to infiltrate into the soil before watering it to prevent contaminated runoff from entering the storm sewer.
- Avoid spreading fertilizer within 25 feet of the rim of a pond. The fertilizer will feed algae growth in the water and create unsightly green blooms on the pond surface. In fact, it is desirable to have tall growth around a pond to deter waterfowl from entering and soiling the water.
- When you mow the lawn, sweep clippings off of the driveway and sidewalk back onto the lawn, so fertilizer that is clinging to the grass will not get carried off-site in a rainstorm.

The moral of the story is to allow water to exit your property in the same condition as it enters your property, either from the tap or from the sky. It is impossible to ensure the water leaving your property is 100% pure, but the steps that you and your neighbors take to mitigate contamination will allow nature to do the rest, and keep the water cycle clean and cheap for all to use. Enjoy your summer and stay cool!

## FROM THE ASSESSMENT OFFICE

One of the ways our assessment roll is maintained is through field inspections throughout the town, in order to keep our property inventory records current. We also review and inspect for building permits for new construction, demolition, or improvements.

It's possible that you've begun seeing some of the more visible aspects of our activities now that the summer is

here. We are conducting field inspections and updating our photo files in several neighborhoods throughout the summer as weather conditions permit. Anyone working on this project will have an appropriate photo identification badge.

# LOOKUP DOG PARK

3850 East Henrietta Road will be opening soon.

*Henrietta's Lookup Dog Park will also be part of the Monroe County Dog Park System. To register, please visit the Henrietta Town Clerk's Office located at 475 Calkins Road.*

## Registration requirements:

- You will be required to complete a Permit Application, sign an Acknowledgement, Agreement and Release Form.
- The yearly fee is \$24.00 per dog that can be paid in cash, check, or money order. Credit/Debit card payments will be \$25.00 per dog.
- Once registered, you will receive a lock code/combination that will provide you access to all three Monroe County Dog Parks (Lookup Park, Ellison Park and Greece Canal Park). The lock code is required to enter and exit the park.
- We request that users please not give the code to unregistered users. This is to help protect our dog park and aid registered users in caring for the park.
- You will also receive a dated metal dog tag that must be fastened to your dog(s) collar.

## How the park works and basic rules for use:

- The Dog Park will be self-monitoring; Park Staff will not be assigned to monitor Park activity.
- There will be shade and sun seating areas
- There will be an area to wash your dog
- The Park Staff will re-stock the dog poop bag dispensers, empty the dog poop receptacles, and perform any necessary maintenance.
- Remember to close all gates as you enter and exit the Dog Park.
- The park is open year round
- If you witness or experience a dangerous or unlawful situation, call 911.

## Owners are expected to:

- Have voice control over their dog(s) and keep their dog(s) in sight at all times
- Be responsible for the conduct of their dog and responsible for all injury to persons or property caused by their dog.
- Clean up after their dog(s).
- Immediately leash and remove from the area their dog showing aggression toward persons or other dogs.
- Bring no more than 3 dogs in the off-leash area at one time.

## For the safety of all dogs and humans:

- No food (human or dog), alcohol, smoking, or glass
- No children under 10
- No choke, pronged, or spiked collars
- No large dogs in small dog area
- No dogs in heat, or that are ill or injured
- No dogs under 6 months old

Please see [www.monroecounty.gov/parks](http://www.monroecounty.gov/parks) for all dog park rules, protocol, etiquette and FAQ's.

## Henrietta will be Conducting a Dog Census

The Town of Henrietta will be conducting a dog enumeration, also referred to as a dog census, through the fall of 2014. Please note that an Animal Control Officer or an authorized Town representative will be going "door to door" to verify compliance with Town and State Dog Licensing requirements. You will simply be asked if you have any dogs and if so, are they currently licensed. The Animal Control Officer or an authorized Town representative will then verify this information with Town records. If your dog(s) are not in compliance at that time you will be given an opportunity to license your dog(s), subject to any additional fines.

New York State Agriculture and Markets Law, Article 7, requires all dogs to be licensed at four months of age. Once licensed, you will receive a friendly reminder to renew your license once a year. Please bring the following documentation to the Town Hall:

- **Written proof of rabies vaccination (must indicate the vaccination date)**
- **Written proof of Spaying / Neutering (if applicable)**
- **Applicable Annual Fee (\$18, \$9 if spayed/neutered)**

If your dog(s) are not licensed, please visit the Town Clerk's Office located at 475 Calkins Road, by September 19, 2014 to comply with Town and State Laws. Please note that **additional fines** will be imposed once the dog enumeration process starts for any and all unlicensed dogs.

Please note that we've extended the deadline to help you take advantage of our **FREE** rabies clinic on September 10th from 4:00 p.m. – 6:00 p.m.

For additional information, please contact the Town Clerk's Department at 334-7700 or the Animal Control Office at 359-7009.

## WE PRUNE TREES NEAR OUR POWER LINES ONLY

We prune and sometimes remove trees and vegetation that could come into contact with our power lines. If you believe trees around utility lines need to be removed or pruned, we encourage you to contact the appropriate utility company – RG&E or NYSEG, the cable company or the telephone company.

Remember for safety's sake, stay clear of all lines. Vegetation on or near your electricity service wires should be pruned by qualified tree contractors. Do not attempt this work yourself.

If you have trees that are not interfering with utility wires but need to be pruned, skilled tree contractors are best qualified to handle the job safely. A tree or limb that comes in contact with a power line could be deadly.

### Here are some additional safety tips:

- Never attempt to remove tree debris when any downed lines may be entangled in the debris.
- Leave cutting and pruning of trees near power lines to professionals. A tree or limb that contacts a power line could be deadly.
- Remind children not to climb trees near power lines or climb on pad-mounted transformers.
- Avoid planting new trees under power lines.

### Our tree debris removal policy:

- During scheduled maintenance tree work in residential and landscaped areas, we chip and remove smaller branches less than six inches and cut larger ones into manageable lengths and leave onsite.
- When customers request that we clear vegetation outside of our scheduled maintenance or in rural, non-landscaped areas, we leave the cut material behind for customer disposal.

- Following a storm, our first priority is to restore service safely and as quickly and efficiently as possible, so when we have to cut vegetation, we leave cut materials behind for customer disposal or to naturally decompose.

### Natural Trimming Methods:

In yards and other landscaped areas, trees will be pruned using natural pruning methods established by the American National Standards Institute (ANSI) standards and Tree Care Industry Association (TCIA) guidelines. (Please note that during an emergency we may not be able to adhere to the natural pruning method.) This pruning method involves cutting limbs where the tree would normally shed them and directing future growth away from power lines. While a newly pruned tree will look different, natural pruning protects the health of the tree, minimizes regrowth and requires fewer cuts. We will not paint pruned trees with tree wound dressings. Such dressings are cosmetic and do not stop decay. In fact, some studies show them to have a detrimental effect.

### Selective Tree Removal:

In rural and wooded areas, tree removal is an effective and economical method for controlling vegetation. Whenever practical, trees that are likely to grow into power lines will be removed. Tree removal is the best option when pruning alone cannot achieve adequate clearance from power lines or when disease or insect infestations have resulted in irreversible decline. Such trees are more likely to cause problems during storms and high winds.

For more information on RG&E policy regarding tree trimming, removal and planting go to RG&E's website, select usage and safety on their home page, then select the electrical safety tab which will give you access to their tree policies.

Safety Officer  
359-7008 • [cmarshall@henrietta.org](mailto:cmarshall@henrietta.org)

## DEPARTMENT OF PUBLIC WORKS

Finally...Summer is here!!! I am not quite sure where Spring went, but we are all looking forward to some warmth and sunshine.

Once again, The Highway Department has an ambitious road schedule and will attempt to resurface over 10 miles of town roads and over 4 miles of county roads. We will be repairing broken gutter sections, catch basins and any other related issues as well. The 2014 Road Maintenance Schedule is posted on the Town's website and updated daily if any changes arise. The schedule can be located under Departments/Public Works/Highway/Road Work Updates.

The Parks Department just completed its first ever Clean Sweep with huge success. Over 300 volunteers came out to help clean up Henrietta's parks, roadsides, and trails. Thank you to everyone who helped. The fence for the new dog

park is due to be installed soon. Hopefully the dogs will be able to use it by July. Lookup Park has received many other updates including new pavement.

The amphitheater has been installed for the second straight year in the town park for this year's summer programs.

The Drainage and Sewer Department is already around Town working on this year's sewer flushing and pipe repair programs. Fineline Pipeline has been awarded a contract by the town to complete scheduled sewer repairs. They will also be working around town. Their schedule is posted on the Henrietta website. Thank you.
