

Pricing Response Sheet – Concrete Curbing for Henrietta Library

Unit Price of Material: \$ _____ X 3,500 linear feet * = \$ _____

Cost for producing the layout = \$ _____

Other costs (specify: _____) = \$ _____

TOTAL: \$ _____ **

* The 3,500 is a +/- estimate based on the plans. The actual linear feet, as per the final layout, will be used to calculate the amount paid.

** If the respondent wishes to offer an alternate specification for the material or procedure, they may do so by submitting a second response sheet and include with it a detailed response as to how the alternate material or procedure will provide the same performance or results as the one specified in the bid documents. Such substitute materials or procedures will only be considered if, under the sole discretion of the Town of Henrietta, the specifications for the substitution represent no material or significant change to the specifications contained within the bid documents.
